President's Message

Well, this is my last message as ACFA President, and the feeling is bittersweet. Like at the end to a day of fishing. You're sad it's over, but so glad you went along for the ride. Such experiences help shape memories and lives, and we always carry that with us. It will be easier now to step back from the responsibilities with "new blood" at the helm, and I am honored to continue serving the ACFA, as Newsletter Editor (again).

The extraordinary length of my unprecedented tenure as ACFA President was mostly due to the changes regulated upon us by the COVID shutdowns in 2020. We lost a chunk of our membership then, and it hasn't been easy to rebuild it since. Only with the aid of some concerned and dedicated folks who wanted to see this club continue to exist and evolve have we persevered. So, I trust the changes we have implemented will make the ACFA continue to grow stronger as a community, and be even more FUN for its members (especially the young ones), so we can remain a unique part of the fishing environment in our region. Plus I hope and pray the appeal this club offers to recreational fisher men and women, especially the family oriented ones, will continue to grow us into the future. Reach out to your friends and family and encourage them to join the ACFA. Exhort what you have gleaned from being a member by letting them know how much it means to you.

God bless & keep you!

David Thornton

November Meeting Review

Robert Thornton
ACFA Newsletter Editor

Our November meeting was a smash featuring local Guide guru and media personality and former tournament fisherman, Capt. Bobby Abruscato (owner of A-Team Fishing Adventures) <https://ateamfishing.com/> as our main speaker talking about his favorite topic...Fall/Winter Fishing. Most are well aware Capt. Bobby is one of the most well known and respected guides in our area. But he is also one of the founding members of the ACFA back in 1997, as a participant through the early years, and later a solid supporter of the club, doing numerous talks and often times giving out prizes during his talks and sharing other goodies for door prizes. Spending the amount of time Capt. Bobby does on the water has allowed him to accumulate a ton of knowledge about what type of fish are available and where to target them. Many years spent on the

water has allowed Capt. Bobby to develop a Matrix he uses to define his basic target species and tactics. It is loaded with help to get you on the fish by using this as a "guide".

Speckled Trout Fishing Tips for Mobile Bay

<u>Water temp.</u>	<u>~Time of year</u>	<u>Baits</u>	<u>Water depth</u>	<u>tactics/rigging</u>
Under 62 degrees	December 1-March 31	artificial- jigs, slow sinking and suspending plugs	8' and deeper to deepest water relative to area being fished	work slow thru channels of tidal rivers on cold days, adjacent flats after a few warm days
62-75 degrees	March 31- May 15, October 15-December 1	live and fake shrimp, artificials top water, crank baits	water less than 8', flats adjacent to river mouths, oyster shell reefs grass flats	popping corks with shrimp, top waters where mullet are present- look for slicks, drift until fish are located
75+ degrees	May 15- October 15	live shrimp and croakers	structure (rigs, wrecks, reefs and rock piles) in water deeper than 8'	slip corks and tight lines fish up current of structure and keep bait in lower third of water column

November Meeting Review (continued)

Capt. Bobby's Matrix is somewhat of a roadmap of how, what, when and where to fish certain areas during certain times of the year and use specific choices of rod / reel / lure combinations. Capt. Bobby prefers spinning tackle of 7'0" - 7'6" rods loaded with 20# braided line. He prefers braid because it has no stretch versus monofilament which has a good bit of stretch.

Currently, popping cork fishing is the ticket until the water temperature drops and the shrimp disappear for the winter. While fishing, if you happen to notice a "fish slick" on the surface, try to maneuver your boat upwind and upcurrent and cast into the slick. Remember, the "slick" is constantly moving depending on current and wind. Later in the Fall / Winter patterns will change again and I firmly believe this Matrix is a tool no fisherman should be without to adjust.

With the shrimp now gone for the winter, pinfish are an excellent choice for bait. Fish in water about 2 ft - 10 ft deep during this time of year. Another tactic

Capt. Bobby prefers using is the "Slick Lures". His hook of choice is a 4/0 OWNER BEAST HOOK. There are several features of the hook that make it ideal for fishing the Slick Lure. At the eye of the hook is a 3/4" straight piece that screws into the nose of the lure. The main hook shaft is a steeply curved hook body that also has a 1/8 oz weight attached mid-shaft. This small amount of weight encourages the Slick Lure to dive with a glide, not so fast the fish cannot grab the bait on the slow fall. You can change body color and size, all on the same hook. Tie your hook to the braid on your rig using a "LOOP" knot.

November Meeting Review (continued)

As a reminder, the 2025 BFC & CPR contests are already underway since November 15, 2024 and will continue until midnight November 14, 2025. All entries should be forwarded to the 2025 Statistician, Sandy Tillery at sandyt@bagrus.com or (251) 583-8660.

He is just one of the ACFA Officers approved at the November meeting. This is what your lineup for next year's ACFA Board of Directors and Officers will look like. Their names and phone numbers are for ease of the membership to contact them, but be aware we recently had a text scammer posing as David Thornton trying to solicit funds directly. NOTE: that will NEVER be from an ACFA Officer, and if you are ever contacted in such a way please report it to them ASAP!
